

PROTOSOL

Liquid Feed Supplement

COMPOSITION:-

Each 5 ml Contains

Pyridoxine Hcl 4 mg, Niacinamide 15 mg, Cyanocobalamine 15 mcg, Protein Hydrolysate 50 mg, Selenium 2 ppm, Biotin 2 ppm, Amino acids 4.21% (Arginine 0.9% Tryptophan 0.11%, Phenylamin 0.7%, Glycine 1.1%, Lysine - 0.8%).

Various protein sources (Fish, Soya, etc.,) contain different amino acid profile which vary in proportions and are unpredictable. Amino acids are pre-digested proteins in simpler forms for immediate & quick absorption.

PROTOSOL is a combination of essential & non-essential Amino acids with certain "B" group Vitamins in a fortified base which are complementary to each other for optimum performance.

Advantages:-

- Excellent growth and feed conversion in Chicks and Broilers.
- Stimulates & maintains Egg production when feed consumption goes down.
- Regular supply of Amino acids even when protein content of Fish meal and GNC is uncertain.
- Overcomes post mycotoxin problems.
- Maintains good production in suspected protein deficient diets.
- Reduces convalescence period and hence faster recovery.
- Helps tissue construction and repair.
- Stimulates and maintains production in later half of laying cycle.

Usage Instruction:

Chicks	5 ml / 100 Birds.	} For 5 -7 days or as recommended.
Broilers & Growers	10 ml / 100 Birds.	
Layers	15-20 ml / 100 Birds.	
Breeders	25 -30 ml / 100 Birds.	

Presentation: 1 ltr bottle, 5 ltr jar & 30 ltr. Drum.

ISO 9001:2000
